Global road safety crisis

Addendum

Draft resolution
Global road safety crisis

The General Assembly,

Noting the rapid increase in road traffic deaths, injuries and disabilities globally,

Recognizing the disproportionate fatality rate in developing countries,

Taking note of the negative impact of road traffic injuries on national and global economies,

Noting that certain developing countries lack the economic resources necessary for road safety, which results in increased road deaths and related injuries,

Affirming the need for a worldwide effort to raise awareness of the importance of road safety as a public policy issue, especially through education and dissemination of information,

Convinced that responsibility for road safety rests at the local, municipal and national levels,

Affirming also that the road safety crisis has multiple dimensions requiring collaborative efforts at all levels, including through appropriate public health education programmes,

1. *Welcomes* the efforts of the World Health Organization to designate "Safe roads" as the theme of World Health Day 2004, to be observed on 7 April of that year, and to undertake the development of a world report on road traffic injury prevention, to be issued in April 2004;

03-28323 (E) 180303

2. *Encourages* Governments and civil society to raise awareness of the widespread problem of preventable road traffic deaths and injuries, targeting especially the young in educational establishments;

3. *Urges* all Governments to promulgate new, and continue to enforce existing, traffic laws;

4. *Requests* the Secretary-General to submit a report to the General Assembly on the global road safety crisis through the appropriate United Nations body, taking into consideration the views expressed by Member States and the relevant organs and agencies within the United Nations system, for consideration during the fifty-eighth session of the General Assembly.
